3. PRESENTATIONS:

Jonathan Pharr with Cardinal Health gave a presentation to inform the Board of a new set of regulations involving sterile compounding and sterile preparation. He mentioned the official implementation date for the new regulation will be December 1, 2019. He discussed how 825 is specific to radiopharmacy, as it balances patient safety and worker safety. Mr. Pharr provided the Board with his contact information for anyone who may have questions or concerns.

Holly Ouellette gave a presentation on behalf of BriovaRX requesting to apply for a pharmacy license for the state of Alabama and also sought to receive approval for remote order entry. The Board informed Ms. Ouellette that a representative from the pharmacy they are partnered with had to come before the Board to make the request for remote order entry. The Board tabled the request until a representative returns to request the remote order entry and answer any questions the Board may have at that time.

Robby Smith and Rachel Weaver gave a presentation on behalf of USA Health University Hospital and USA Health Children's & Women's Hospital regarding special considerations for both remote order entry and central fill. The Board's consensus was to approve the proposal for central fill to extend through the end of the year. The Board requested that Ms. Weaver and Mr. Smith send updated policy and procedures documentation that is more specific regarding remote order entry. A motion was made by Dr. Denson and seconded by Mr. Sorrell that the Board would approve upon the contingency that acceptable documents are provided.
